the DINOSAUR's SKIN

BIO

The Dinosaur's Skin is a Jurassic-Pop duo consisting of **Trex** and **Triceratops**, the last two remaining dinosaurs on Earth.

They write and perform songs about their prehistoric adventures in search of other dinosaur survivors and to mourn their deceased friends. Their songs ranges from **lo-fi ballad, feel-good indie rock to ambient dream pop**, with more than 14 million total streams on Spotify.

Their debut EP "Millions of Years Apart" earned nominations for the **Golden Melody Awards and Golden Indie Music Awards**, catapulting The Dinosaur's Skin to international acclaim with shows and festivals appearances in New York, Austin, Toronto, Paris, Bangkok, Bali, Hong Kong, and Taiwan.
